

POSTMAN

1. **GET: <https://dummy.restapiexample.com/api/v1/employees>**

Write test scripts to:

- a. Verify the status code 200 for GET and 201 for POST.
- b. Verify the data types for the GET Response JSON body.

UI Automation

1. **Write an automated test script to test the following scenario:**

Step 1: Go to <https://daraz.com.np>

Step 2: Search for any keyword

Step 3: Verify if it is showing the correct search result or not.
